

Matsumoto Microspheres (Matsumoto Yushi-Seiyaku Co.,Ltd)

Products	Description	Application
F-30	Thermally expandable hollow microspheres consisting of a flexible organic polymer shell	Blowing agent for structural foams, matting agents of PVC plastisols, flexibilization of sealant systems, anti-slip coatings, general density reduction, improvement of thermal and acoustic insulation, for temperature ranges from 90 °C to 250 °C
F-36 F-36D F-46N F-79D F-80 F-82D F-100D FN-105 F-170D F-190D F-230D F-260D F-2800D F-2830D F-2860D	Thermally expandable hollow microspheres consisting of a flexible, organic polymer shell, chlorine-free products	Blowing agent for structural foams, matting agents of PVC plastisols, flexibilization of sealant systems, anti-slip coatings, general density reduction, improvement of thermal and acoustic insulation, for temperature ranges from 90 °C to 250 °C
MBF-190EVA50 MBFN-190SSPE	Thermally expandable hollow microspheres as 50% masterbatches	Blowing agents for extrusion and injection moulding
