

Commercial name	INCI	Description	size	Status
Abricot	Prunus armeniaca seed Powder	Apricot kernel powder is a natural exfoliant that removes dead skin cells, softens the skin, and stimulates circulation. Moderately abrasive, it's suitable for all skin types, depending on its thickness, while being eco-friendly and microplastic-free.	100-200µ 200-300µ 300-400µ 400-500µ 500-800µ	Chine
Amande	Prunus amygdalus seed powder	Almond kernel powder is rich in nutrients and used in cosmetics to gently exfoliate the skin, removing dead skin cells and impurities. Its mild abrasiveness makes it a suitable ingredient in scrubs, leaving skin smooth and radiant.	100-200µ 200-300µ 300-400µ 400-500µ 500-800µ	Chine
Bambou	Bambusa Vulgaris powder	Bamboo powder, rich in silica, remineralizes the skin and promotes radiance. Its fine abrasiveness makes it an excellent exfoliant, ideal for gently refining skin texture and smoothing imperfections.	200 -500µ 500-1000µ	
Fraise	Fragaria vesca seed powder	Strawberry seed powder is rich in antioxidants and gently exfoliates the skin, removing dead skin cells and impurities. Its moderate abrasiveness makes it suitable for gentle scrubs, leaving skin soft and revitalized.	300-500µ 500-1400µ	
Framboise	Rubus idaeus Seed Powder	Raspberry seed powder is rich in antioxidants and naturally exfoliates the skin gently. Its fine abrasiveness makes it suitable for facial scrubs.	300-500µ 500-1400µ	
Luffa	Luffa Cylindrica Fruit Powder	Loofah powder effectively exfoliates the skin thanks to its fibrous texture, ideal for stimulating cell renewal. Its very mild abrasiveness makes it a very gentle scrub.	200-500µ 500-800µ	
Noisette	Corylus Avellana Shell Powder	Hazelnut shell powder effectively exfoliates the skin, removing dead skin cells and impurities. Its moderate to high abrasiveness makes it an ideal ingredient for body scrubs.	200-300µ 300-400µ 400-500µ 500-800µ	
Noix	Juglans Regia shell powder	Walnut shell powder is a powerful exfoliant that removes impurities and refines skin texture. Its high abrasiveness makes it an ideal choice for body scrubs.	200-300µ 300-400µ 400-500µ 500-800µ	
Olive	Olea Europaea seed Powder	Olive kernel powder intensely exfoliates, helping to remove impurities and smooth the skin. Its high abrasiveness makes it an excellent choice for robust body scrubs, leaving skin clean and revitalized.	200-300µ 300-400µ 400-500µ 500-800µ	
Pêche	Prunus Persica Kernel Powder	Peach kernel powder gently exfoliates, removing dead skin cells for smooth, radiant skin. Its moderate abrasiveness makes it suitable for face and body scrubs, providing a revitalizing treatment.	100-300µ 300-500µ 500-800µ
