Environment | Policies High impact on score

● ↗ **75**/100

A policy is a set of objectives that addresses specific sustainability issues. It shows a company's intention to reduce impact, mitigate risk or improve performance.

Strengths

Environmental policy on materials, chemicals & waste
Quantitative objectives set on energy consumption & GHGs
Quantitative objectives set on materials, chemicals & waste
Comprehensive policy on a majority of environmental issues
Environmental policy on energy consumption & GHGs
Environmental policy on water
Environmental policy on customer health & safety
Quantitative objectives set on water

Improvement areas

Low priority Inconclusive documentation for policies on air pollution
--

Environment | Endorsements Low impact on score

● → **75**/100

Endorsements are your company's public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Strengths

Endorsement of the United Nations Global Compact (UNGC)

Environment | Measures High impact on score

● → 75/100

Measures are your company's actions to support your sustainability policies and commitments.

Strengths

Company-specific emergency preparedness and response procedure regarding customer health and safety
Control measures to prevent contamination of groundwater
Work processes or technologies implemented to mitigate odor
Work processes or technologies implemented to mitigate noise
Technologies or practices to recycle or reuse water
Company awareness program for customers on health & safety issues associated with products/services
Mapping of waste streams
Actions for labeling, storing, handling and transporting hazardous substances
Use of waste heat recovery system(s) or combined heat and power unit(s)
Energy and/or carbon audit
Improvement of energy efficiency through technology or equipment upgrades
Training employees to safely handle and manage hazardous substances
Internal sorting & disposal of waste according to waste streams
Actions or training to raise employee awareness on waste reduction & sorting
Purchase and/or generation of renewable energy
Training of employees on energy conservation/climate actions
Provision of safety data sheets (SDS) adapted for the REACH regulation
Registration of substances to the ECHA
Communication to downstream users regarding the use of dangerous substances and/or substances of very high concern (SVHC)

Environment | Certifications Medium impact on score

● → 100/100

Certifications confirm your compliance with international standards (for example, ISO 14001). They must be issued by an external certification body.

Strengths

ISO 14001 certified
ISO 50001 certified

Environment | Reporting Medium impact on score

● → 75/100

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

Comprehensive reporting on environmental issues
Reporting on total water consumption
External assurance or verification of sustainability reporting
Reporting on total gross Scope 3 GHG emissions
Total gross Scope 3 GHG emissions reporting value confirmed in supporting documentation
Reporting on total gross Scope 1 GHG emissions
Reporting on total gross Scope 2 GHG emissions (market or location based)
Reporting on total weight of hazardous waste
Materiality analysis in sustainability reporting
Reporting on total gross Scope 3 downstream GHG emissions
Reporting on total amount of renewable energy consumed
Reporting on total energy consumption
Total gross Scope 3 downstream GHG emissions value confirmed in supporting documentation
Total gross Scope 2 reporting value confirmed in supporting documentation
Total gross Scope 1 reporting value confirmed in supporting documentation
Declares none of the sites/operations located in or near biodiversity-sensitive areas (not verified)

Improvement areas

Low priority	Declares reporting on total weight of non-hazardous waste, but no supporting documentation available
Low priority	No information on reporting on total weight of air pollutants
Low priority	No information on reporting on total amount of water recycled and reused
Low priority	Declares reporting on total weight of waste recovered, but no supporting documentation available

Environment | 360° Watch

High impact on score

● → 50/100

The 360° Watch Findings indicator is scored based on the data we gather by scanning thousands of sources in the public domain. This allows us to get a broader overview of your company's sustainability management.

Improvement areas

Medium priority	The 360° Watch has identified at least one significant controversy, fine or penalty regarding environmental issues in the last five years (see news with red downward arrow in the 360° Watch section).
Medium priority	The 360° Watch has identified at least one significant adverse report regarding materials, chemicals and/or waste.

Evaluation of marketing prospects for a green silica filler

www.european-coatings.com | 30 May 2022

Brisil Technologies and Lehmann & Voss & Co. have signed an agreement to evaluate the commercialisation prospects of a silica filler derived from biomass. The evaluation relates to elastomer applications and is limited to Europe. The silica filler is "precipitated silica", which Brisil extracts from rice husk ash using a residue-optimised chemical process

Labor & Human Rights | Policies High impact on score ● → 50/100

A policy is a set of objectives that addresses specific sustainability issues. It shows a company's intention to reduce impact, mitigate risk or improve performance.

Strengths

- Labor & human rights policy on social dialogue
- Labor & human rights policy on working conditions
- Labor & human rights policy on employee health & safety
- Labor & human rights policy on child labor, forced labor & human trafficking
- Standard policy on a majority of labor or human rights issues
- Labor & human rights policy on career management & training
- Labor & human rights policy on diversity, equity & inclusion

Improvement areas

- Low priority No quantitative target set on living wage

Low priority No quantitative target on labor and human rights issues

Labor & Human Rights | Endorsements Low impact on score

● → 75/100

Endorsements are your company's public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Strengths

Endorsement of the United Nations Global Compact (UNGC)

Labor & Human Rights | Measures High impact on score

● → 75/100

Measures are your company's actions to support your sustainability policies and commitments.

Strengths

Provision of skills development training

Collective bargaining agreement on working conditions

Collective bargaining agreement on diversity, discrimination and/or harassment

Actions to prevent discrimination during recruitment phase

Employee representatives or employee representative body (e.g. works council)

Impact assessments identifying potential child labor, forced labor and/or human trafficking

Training of employees on health and safety risks and best working practices

Complaints procedure in place for employees to report on occupational health and safety issues

Actions to control hazardous substance exposure

Actions to prevent noise exposure

Actions in place to ensure health and safety of non-employee workers and other contracted workers on premises

Employee health & safety risk assessment

Regular assessment of individual performance

Collective bargaining agreement on employees' health & safety

Individual development and career plan for all employees

Stakeholder consultation with potentially affected groups or NGOs to address child labor, forced labor and/or human trafficking issues

Age verification of candidates before hiring

Grievance mechanism on child labor, forced labor and/or human trafficking issues

Regular employee health check-up

Employee health and safety emergency action plan

The company declares its main operation(s) is located in a region where the right to freedom of association is not restricted by local law/regulation (not verified)

Grievance mechanism on discrimination and/or harassment issues

Other actions to ensure good working conditions

Family Friendly programs (FFPs) implemented (e.g. parental or care leaves, childcare services or allowances)

Compensation for extra or atypical working hours

Improvement areas

Low priority Declares measures on living wage, but no supporting documentation available

Labor & Human Rights | Certifications **Medium** impact on score

50/100

Certifications confirm your compliance with international standards (for example, ISO 14001). They must be issued by an external certification body.

Strengths

ISO 45001 certified

Labor & Human Rights | Reporting **Medium** impact on score

25/100

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

Reporting on the percentage of women employed in relation to the whole organization

Report on percentage of women within the organization's board

External assurance or verification of sustainability reporting

Reporting on number of average training hours per employee

Reporting on the percentage of employees from minority and/or vulnerable groups in the whole organization

Materiality analysis in sustainability reporting

Reporting on number of recordable work-related accidents

Reporting on the percentage of women at top management level

Improvement areas

High priority Insufficient reporting on labor and human rights issues

Low priority No information regarding reporting on living wage issues

Low priority Declares reporting on ratio of the annual total compensation of the highest paid individual, to the median annual total compensation for all employees, but no supporting documentation available

Low priority No information on reporting on number of days lost to work-related injuries, fatalities and ill health
